Address: E-401 nandanvan complex near naman yamaha showroom panvel

EDUCATION

M.E.S Abasaheb garware college,pune — Degree
Bachelor of Arts final year

V.k jr college, panvel — 12th
stream-science.

About

- Energetic and passionate student want to grow and excel in the field of blockchain and its technology.
- Efficient smart contract building.
- Proficient in web designing
- Hands on experience in solidity/Ethereum smart contract ,javascript connecting our interface to blockchain using web3.js libraries and following skills and tools

SKILLS and Tools

- **HTML**
- **CSS -**
Pseudo elements, CSS selectors, media queries, flexbox , Bootstrap, tailwind
- **Javascript-**
Events and Event Handling, Conditional statements, DOM Traversing, DOM manipulation, functions , call backs , promises, async and awaits
- **React.js-**
Function based components , class based components, Hooks, JSX, states, props
- **Solidity -**
smart contract programming, Mapping and advance

Projects

- Real time News App (built with React.js , Bootstrap, News API)
- Fully functioning spotify clone using vanilla javascript, html ,css
- Interactive Personal portfolio with mini built in apps
- Clone of myntra website
- Simple Calculator
- Text analyzer (built with react, Bootstrap)

Courses

- **Blockchain specialization (university of Buffalo)**
 - Blockchain Basics
 - Smart Contracts
 - Decentralized Applications (Dapps)
- **Web development course (johns Hopkins university)**
 - HTML
 - CSS / CSS framework
 - Javascript
- **Front-end development (Meta)**
 - Front-End Web Development
 - React
 - Object-Oriented Programming (OOP)

mapping , structs, events , constructors, inbuilt cryptographic hash function

- **Blockchain** -
ethereum ,bitcoin, hashing algorithm, p2p network ,
consensus protocols, ICO , alt coins
- **Web3.js** -
Interacting with smart contracts through frontend
- **Truffle**
- **Metamask** -
Crypto wallet
- **Ganache**
